1 A. We have a fuel tank in the back area where the trucks  
2 are. Where the trucks sit is a big fuel tanker out  
3 there that we pull up and fuel up if we need gas.

4 Q. Again, when did you typically fill your truck?

5 A. It would be in the morning when we first get our  
6 trucks.

7 Q. Did you do that for every time you drove?

8 A. No. I would do it every maybe like two to three days  
9 because, like I said, I was kind of locally and I was  
10 sitting around at a lot of buildings for my day. I  
11 wasn't just driving nonstop so I didn't have to fuel  
12 up every day.

13 Q. Okay. How were -- during this time frame, late 2017  
14 to the time you ended, how were you paid? How was  
15 your pay calculated by Absopure?

16 A. We were commission so it goes off -- it guess it goes  
17 off how much water we sell throughout the day, how  
18 much product we sell.

19 Q. I'm going to put up another document for you. Just  
20 give me a minute. Okay. Can you see a document in  
21 front of you?

22 A. Yes.

23 Q. Do you -- and I will put for the record, if you give  
24 me a minute, the document that has been produced in  
25 this case is -- bears Bates numbers 4401 through 4429,

KEITH BROWN

1           breakdown. I never did. I never really like paid  
2           attention to that stuff. I just -- the only thing I  
3           did was write down what they told me how much I made  
4           that day.

5       Q.   What is your understanding of how you -- you said you  
6           were paid commission. How that commission was  
7           calculated, what's your understanding of that?

8       A.   I know we got a certain percentage of whatever we  
9           deliver so everybody paid a different amount for the  
10          water and we got a certain amount of a percentage of  
11          what we sold, whatever we delivered to that stop. So  
12          if a stop took eight bottles, we would get -- you  
13          know, if the total was \$64 for the eight bottles, we  
14          got a percentage off those 64 bottles I guess.

15      Q.   The percentage was off the amount of the sale, is that  
16          correct?

17                       MR. FRISCH: Objection. He said it was  
18          based on the amount that he delivered.

19                       THE WITNESS: Yeah, for delivery. I wasn't  
20          a salesperson. We just delivered water.

21      BY MR. CUMMINGS:

22      Q.   For the delivery then, that would be the value of the  
23          products delivered, is that correct?

24      A.   Yes. I'm saying sales but I'm meaning delivery. We  
25          just delivered water. We didn't have any like sales.
